

# California OES Weather Threat Briefing

Sunday, December 9, 2018  
9:00 AM PST

- 
- **Day 1 Primary Hazards:** No significant impacts expected

National Weather Service  
Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT

# Key Points

12/09/18 - 12/15/18

## Sunday morning and early afternoon

- Winds along the coastline north of the Bay Area are expected to gust 15 to 30 mph. Inland, typical windy spots may see wind gusts up to 25 mph today.

## Late Sunday - Tuesday

- Light valley rain and mountain snow showers will begin late this afternoon along the coastline and reach inland locations late tonight through early Tuesday
  - Light rain expected over northern burn areas, including Camp fire. Rain rates will NOT meet any debris flow triggers.
  - Total rain over the Camp Fire is expected to be less than a tenth of an inch.
  - Highest amounts of rain expected along the northern CA coast.
  - No rain is expected south of the Bay Area.

## Wednesday-Friday

- Light rain across extreme northern CA coastline Wednesday.
- Another weather system is expected to bring additional rain and snow to northern CA Friday and Saturday.
